CAREER OBJECTIVE

To secure a position in a **core engineering company** where I can apply my knowledge of instrumentation, energy systems, and sensing technologies while continuously enhancing my technical expertise and contributing to innovative engineering solutions.

PROFESSIONAL SUMMARY

Instrumentation Engineering graduate with a strong academic foundation and a growing interest in **battery technology, sensor systems, and electronic measurement techniques**. Possess hands-on exposure to **battery mechanisms, sensor integration, and DCAD-based design**, supported by academic projects and certification courses. Research-oriented and system-focused, with the ability to apply analytical thinking to real-world engineering problems. Actively seeking opportunities in **core engineering industries** to contribute to innovation while continuing professional development.

EDUCATION

Bachelor of Engineering (B.E.) – Instrumentation Engineering

[University / College Name] | [Year of Graduation]

TECHNICAL SKILLS

- Battery Technology & Electrochemical Energy Storage
- Sensor Systems & Sensor Integration
- Electronic Measurement Techniques
- Instrumentation Systems
- DCAD-Based Design
- Data Analysis & Problem Solving
- System-Level Engineering Thinking

CERTIFICATIONS

- **MCP (Model Context Protocol) – Fundamentals**
- Technical Skill Development Courses in Instrumentation & Electronic

Academic & Technical Exposure

- Hands-on experience with **battery mechanisms and electrochemical principles**
 - Practical work on **sensor interfacing and measurement systems**
 - Design and analysis using **DCAD tools**
 - Research-oriented academic projects focused on core engineering applications
-

ACHIEVEMENTS AND EXTRACURRICULAR ACTIVITIES

- Karate – Best Fighter Award, demonstrating physical strength, discipline, focus, and a strong competitive spirit.
 - Successfully completed 8 levels of Hindi examinations and earned the title of Hindi Pandit, reflecting strong language proficiency, dedication, and academic perseverance.
 - Active cycling enthusiast, with prizes and recognition received from an IPS officer in Coimbatore, showcasing endurance, consistency, and long-term commitment also achieved **52+ medals** in cycling competitions.
 - Demonstrated exceptional **discipline, consistency, endurance, and goal-oriented mindset.**
 - Continuously training and committed to achieving **higher competitive milestones** also Represented school in multiple sports competitions.
-

PERSONAL STRENGTHS

- Strong analytical and problem-solving skills
 - High levels of discipline and perseverance
 - Quick learner with a research-oriented mindset
 - Ability to balance technical excellence with physical endurance
-

SOFT SKILLS

- Time Management
- Adaptability
- Teamwork & Collaboration
- Discipline & Self-Motivation
